

West Cliff Coal Preparation Plant

Isolation Checklist AG4-4C6

To complete this isolation checklist: **(1)** check that your Task/Work Order Number is correct **(2)** Ensure that the circled/highlighted isolation points are contained in the List of Isolated Equipment on the group board **or** Field Isolation points are isolated by an Isolation Supervisor **(3)** Place your personal red locks onto the required isolation points and/or Group Isolation Board(s) and initial the right hand column to confirm.

Equipment Tag ID	AG4-4C6	Equipment Description	Flotation Cell Agitator C6		Document ID	WCPF0163	
Prepared By	John Koumakis	Approved By	Rod Latham		Date	17/12/15	
Modified By:		Date		Checked By		Date	
Task(s) / Work Order Number(s):					Job Planner:		

Required Isolation	Isolation Point (you must confirm that the circled isolation point is active)				P&ID Reference	Isolation Point Identified & Confirmed (Initial)
	Plant Shutdown Group Board	Modules Shutdown Group Board	Field Isolator	Other/Comments		
AG4-4C6 Flotation Cell Agitator C6 - Motor	WCP WB (AG4-4C6)		Local Isolator (AG4-4C6 Agitator Flotation Cell – C6 IS4-4C6 Isolator)		10047	

I have confirmed that the circled/highlighted isolation points in the above checklist have been isolated. **Note:** if any isolation points are not circled or highlighted then STOP work and contact an Isolation Supervisor. Isolation points identified as "NA" in the comments column do not need to be confirmed.
